Summary

Aspiring game developer with a Postgraduate Degree in Game Design from Kingston University and a robust foundation in information technology and software development. Specialized in creating immersive 2D and 3D games using Unity and Unreal Engine, with a proven track record of developing a new game weekly, demonstrating exceptional productivity and innovation. Passionate about leveraging cutting-edge technologies to develop engaging gaming experiences that have consistently seen improved user engagement metrics. Eager to tackle challenging roles in game development to contribute to the creation of next-generation interactive entertainment.

Work Experience

Data Quality Analyst, Sigma AI, London, United Kingdom

12/2024 – 12/2025

- Ensured 99% dataset accuracy in training data for AI and ML projects across multiple European clients.
- Implemented workflow automations that reduced data processing time by 15% and enhanced consistency.
- Collaborated with engineers to refine data annotation pipelines, thereby improving model performance metrics.

Game Developer Intern, Caden Games, Mumbai, India

01/2021 – 06/2021

- Engineered engaging 2D and 3D games for Android devices using Unity, with a focus on gameplay, physics, and user experience.
- Successfully mentored and trained 10 new recruits, effectively resolving all queries and ensuring seamless integration into the team.
- Integrated Google Ads into applications prior to publication and meticulously tracked app performance post-launch.
- Consistently developed a new game weekly, demonstrating exceptional productivity and creative capabilities, which contributed to a diverse portfolio and rapid prototype development.
